

**IN THE CLAIMS**

1. (Cancel)
2. (Previously Presented) A method of ~~treating or~~ preventing cancer comprising administering to a patient in need of such treatment an effective dose of ~~an isolated~~ compound, wherein the compound is a terpene ~~or oxygenated derivative thereof, and the terpene is~~ selected from the group consisting of :

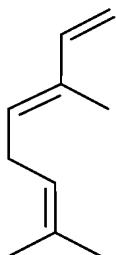

trans-β-Ocimene; and

γ-bisabolene.

3. (Withdrawn) The method of claim 2, wherein the compound is trans-β-ocimene.
4. (Previously Presented) The method of claim 2, wherein the compound is γ-bisabolene.
5. (Previously presented) The method of claim 2, wherein the compound is administered at a concentration of between 0.2  $\mu$ M and 100 mM.
6. (Withdrawn) A pharmaceutical composition comprising the isolated compound:

trans-β-Ocimene

in combination with a pharmaceutically acceptable excipient, carrier, adjuvant or vehicle.

7. (Withdrawn) The pharmaceutical composition according to claim 6, which is formulated so that a single unit dose of the composition provides trans- $\beta$ -Ocimene at a concentration of between 0.2  $\mu$ M and 100 mM.

8. (Previously presented) The method of claim 2, wherein the cancer is selected from the group consisting of breast cancer, ovarian cancer, prostate cancer, colon cancer, lung cancer, pancreatic cancer, bowel cancer, melanoma, testicular cancer, cervical cancer, fibrosarcoma, squamous cell carcinoma, leukaemia, astrocytoma and glioma.

9. (Withdrawn) A method of making a medicament for the treatment or prophylaxis of cancer comprising: combining a *Commiphora guidotti* extract with a pharmaceutically acceptable excipient, carrier, adjuvant, or vehicle.

10. (Cancelled)

11. (Cancelled)
